

Basic Sample Protocol

MONTH ONE & THREE

Agaricus – 3 capsules, 4 times per day, with meals or snacks

<https://breastcancerconqueror.com/product/agaricus-bio-2-bottles/>

Artecin – 2 per meal

Ascorbic acid – High dose Vitamin C can be obtained through IV's, 2-3 times per week at doses of 25 to 100 grams of C. Discuss this with your physician that will be administering the IV.

Make sure that you get tested for the G6PD enzyme before getting any high dose C.

On the days you are not doing IV, 2 teaspoons of liposomal C, 5 times per day. This is equivalent to 60 grams of C per day.

<https://breastcancerconqueror.com/product/lipo-vitamin-c/>

Bio D Emulsion – 2 drops per meal, 3 times per day. This is equivalent to 12K of D

* It is highly recommend that you know your current Vitamin D levels so that your dosage can be adjusted accordingly. According to research a therapeutic level of Vitamin D is 80-100. You can let your coach know your current Vitamin D level or you can use the Vitamin D blood drop test.

** It is highly recommended that for every 5,000 iU of Vitamin D you supplement with 100 mcg of Vitamin K2.

Onkobel Pro- For women under 130 pounds- 2 capsules twice per day

For women over 130 pounds- 3 capsules twice per day

Take on an empty stomach or before a meal

<https://breastcancerconqueror.com/product/onkobel-pro/>

(Onkobel Pro company suggests using Immunobel Pro with the Onkobel Pro, especially if you have a weakened immune system. The suggested dose from the company is 1 powder every 2 weeks; or if you are using chemo, 1 powder every 3-4 days. Do not drink 20 minutes before or after taking Immuobel Pro.)

Basic Sample Protocol

MONTH ONE & THREE

Benagene (oxaloacetate/cronaxal) – 5 capsules in the AM, 5 capsules in the PM with food

<https://breastcancerconqueror.com/product/benagene/>

<https://breastcancerconqueror.com/product/benagene-set-of-three/>

Curcumin – Pure Encapsulations- 3 capsules 3 times per day between meals.

<https://breastcancerconqueror.com/product/curcumasorb-180s/>

Quercetin – (Thorne Brand) 2 with breakfast, 2 with lunch and 1 with dinner

<https://breastcancerconqueror.com/product/quercetin-phytosome-2-bottles/>

BioMat- Most cancer cells are sensitive to heat, it would be beneficial to increase your core body temperature.

Enzyme Protocol- Most Cancer Cells have a multi resistant protein coating, so Enzyme therapy may be beneficial.

<http://breastcancerconqueror.com/can-enzyme-therapy-heal-breast-cancer/>

<https://breastcancerconqueror.com/product/pancreas-pork-natural-glandular-720-caps/>

Begin with 4 in between meals and if you can tolerate, every hour on the hour. After 1 week, increase to 5 per hour, a week later – 6, etc...

If you develop a burning sensation in the rectum, you have reached saturation, which is a good thing.

Reduce the dosage to tolerance.

Basic Sample Protocol

MONTH TWO

Agaricus – 3 capsules, 4 times per day, with meals or snacks

<https://breastcancerconqueror.com/product/agaricus-bio-2-bottles/>

Bio D Emulsion – 2 drops per meal, 3 times per day. This is equivalent to 12K of D

* It is highly recommend that you know your current Vitamin D levels so that your dosage can be adjusted accordingly. According to research a therapeutic level of Vitamin D is 80-100. You can let your coach know your current Vitamin D level or you can use the Vitamin D blood drop test to test.

<https://store.zrtlab.com/index.php/vitamin-d>

** It is highly recommended that for every 5,000 iU of Vitamin D you supplement with 100 mcg of Vitamin K2.

<http://www.lifeextension.com/vitamins-supplements/item01834/super-k-with-advanced-k2-complex>

Super Artemisinin – 2 capsules, 3 times per day, before meals

<https://www.allergyresearchgroup.com/artemisinin>

**It is recommended that you alternate days taking Super Artemisinin so that the body does not develop a immunity to it. You may want to consider 4 days on and then 3 days off

** You can email Jennifer at store@breastcancerconqueror.com if you have issues ordering

AngioStop- 1-2 capsules, 3 times per day with a meal

(*1-2 capsules per meal depending on your financial abilities and the amount of angiogenesis present)

If you have issues finding sources or financial issues with Angiostop, you could consider this as an alternative:

-Or-

Basic Sample Protocol

MONTH TWO

1 bottle of Haelan per day; 4 oz in am, 1 hr before breakfast; 4 oz in PM, 2-3 hours post-dinner. If you need to take with food, eat a light meal/snack.

<https://breastcancerconqueror.com/product/haelan/>

<https://breastcancerconqueror.com/product/haelan-30-day-supply/>

If you can't get past the taste, consider adding liquid stevia, or Coco Complete powder:

<https://www.newvitality.com/product/coco-complete/>

You can also do rectal infusions.

<https://breastcancerconqueror.com/can-fermented-soy-have-an-impact-er-positive-breast-cancer/>

-Or-

If this is not feasible, then do the Soy Isoflavones – 1 per meal:

<https://www.lifeextension.com/Vitamins-Supplements/item01649/Super-Absorbable-Soy-Isoflavones>

Curcumin – Pure Encapsulations- 3 capsules 3 times per day between meals.

<https://breastcancerconqueror.com/product/curcumasorb-180s/>

BioMat- Most cancer cells are sensitive to heat, it would be beneficial to increase your core body temperature.

Enzyme Protocol- Most Cancer Cells have a multi resistant protein coating, so Enzyme therapy may be beneficial.

<https://breastcancerconqueror.com/enzyme-therapy-and-breast-cancer/>

<https://breastcancerconqueror.com/product/pancreas-pork-natural-glandular-720-caps/>

Begin with 4 in between meals and if you can tolerate, every hour on the hour. After 1 week, increase to 5 per hour, a week later – 6, etc...

If you develop a burning sensation in the rectum, you have reached saturation, which is a good thing.

Reduce the dosage to tolerance.
